MHTTC

Mental Health Technology Transfer Center Network

Funded by Substance Abuse and Mental Health Services Administration

The purpose of the MHTTC Network is technology transfer—disseminating and implementing evidence-based practices for mental disorders into the field.

Funded by the Substance Abuse and Mental Health Services Administration (SAMHSA), the MHTTC Network includes 10 Regional Centers, a National American Indian and Alaska Native Center, a National Hispanic and Latino Center, and a Network Coordinating Office.

Our collaborative network supports resource development and dissemination, training and technical assistance, and workforce development for the mental health field. We work with systems, organizations, and treatment practitioners involved in the delivery of mental health services to strengthen their capacity to deliver effective evidence-based practices to individuals. Our services cover the full continuum spanning mental illness prevention, treatment, and recovery support.

The MHTTC Network uses affirming, respectful and recovery-oriented language in all activities. That language is:

STRENGTHS-BASED
AND HOPEFUL

INCLUSIVE AND
ACCEPTING OF
DIVERSE CULTURES,
GENDERS,
PERSPECTIVES,
AND EXPERIENCES

HEALING-CENTERED AND
TRAUMA-RESPONSIVE

INVITING TO INDIVIDUALS
PARTICIPATING IN THEIR
OWN JOURNEYS

PERSON-FIRST AND
FREE OF LABELS

NON-JUDGMENTAL AND
AVOIDING ASSUMPTIONS

RESPECTFUL, CLEAR
AND UNDERSTANDABLE

CONSISTENT WITH
OUR ACTIONS,
POLICIES, AND PRODUCTS

Agenda

Time	Topic	Activities or Breakout Rooms
5 mins	Introductions and Warm-up	Jamboard
15 mins	Defining Assessment	Breakout Room
10 mins	Effective Assessment Approaches	Zoom Poll
15 mins	Reflecting on Challenges	Breakout Room
10 mins	Putting It into Practice	Jamboard
5 mins	Closing	

Introductions and Warm-up

Process of Delivering Services

ASSESSING

PLANNING

INTERVENTION

What Is Assessment?

- Determining a destination
- Seeing what tools we have
- Finding out what the terrain is like

Assessment—Breakout Room (5 mins)

Each person pick a question below and respond:

Image: Canva

1. What does your team currently do that makes assessment successful when working with a client?
2. What is one key thing you train new staff on when it comes to doing assessments with clients?
3. What change in assessment over the years do you find to be a great improvement?

Effective Assessment Approaches

Areas to Assess Independence

How would they define where they are **CURRENTLY**?
Where do they **WANT** to be?

Health

Home

Purpose

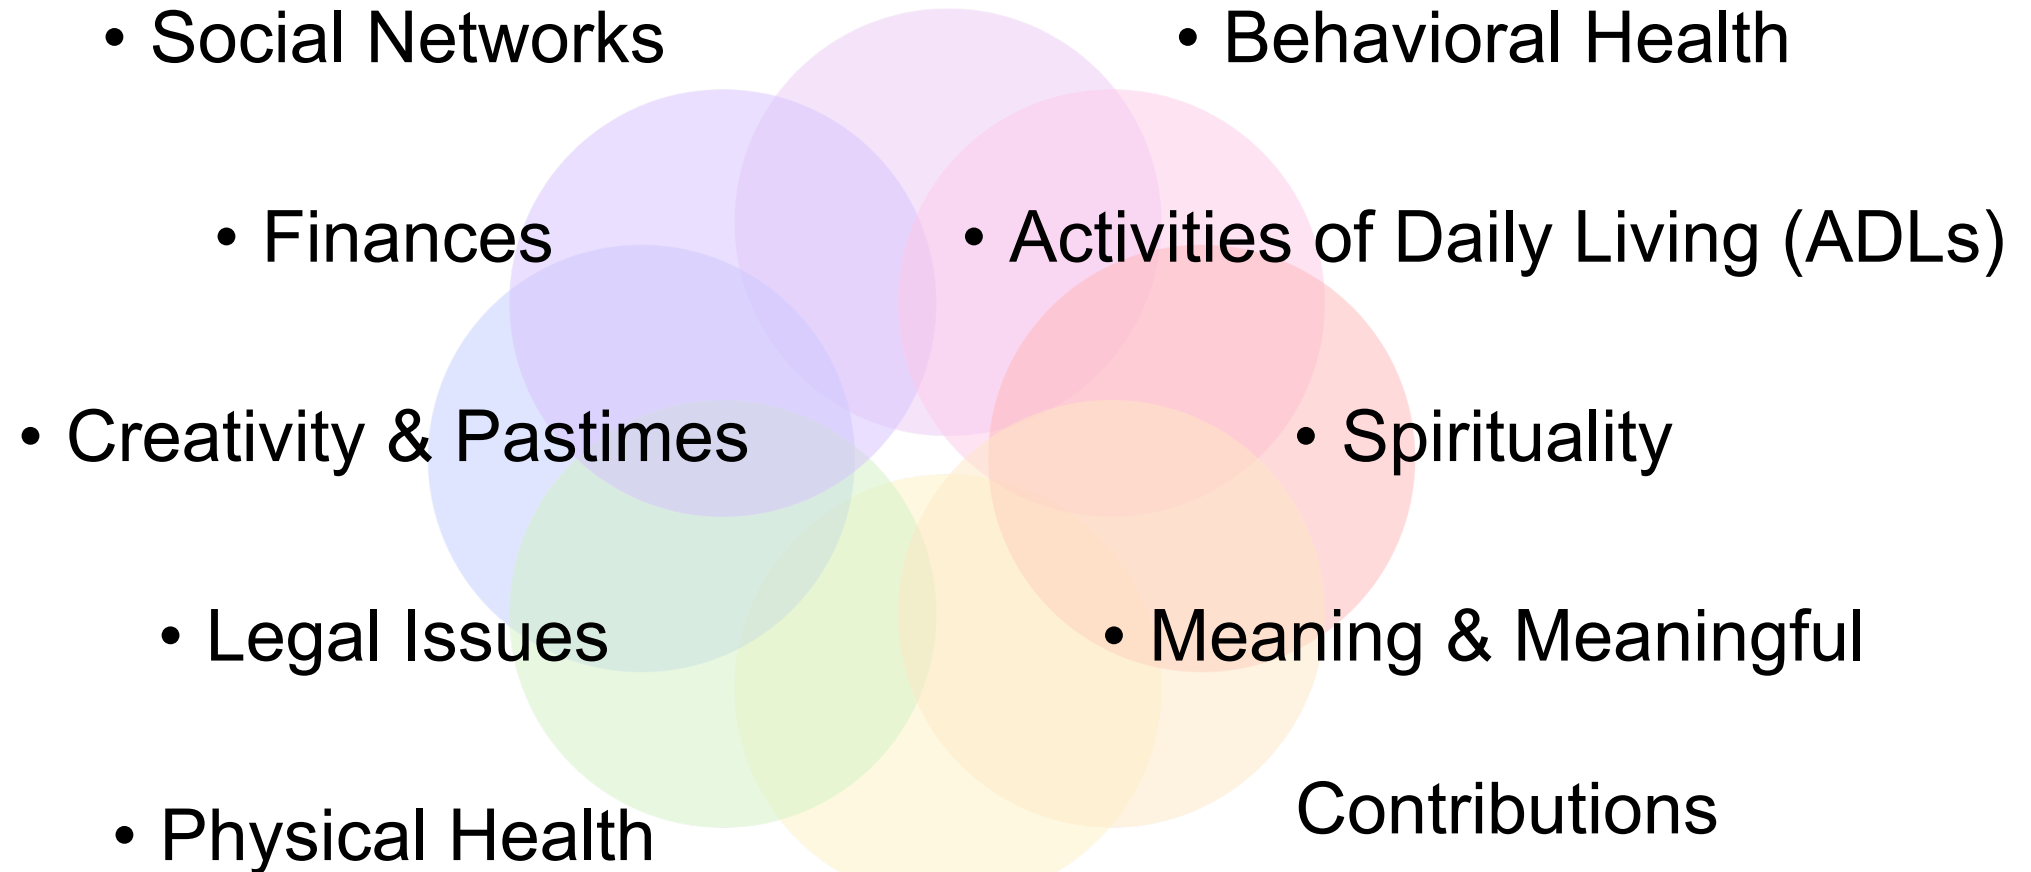

Vocation

Community

Understanding the Whole Person

Poll—What Types of Questions?

Image: Canva

What Types of Questions?

The balance of **open-ended** and **closed-ended** questions makes the difference.

“Do you have a savings account?”

“Are you safe?”

“When did you last see your doctor?”

“Tell me about the last time you saved for something.”

“What does safety look like to you?”

“How would you describe the relationship you have with your doctor?”

Reflecting on Challenges

Challenges—Breakout Room (5 mins)

Each person pick a topic below and share:

1. **Barriers:** What can be a barrier to the success of assessment?
2. **Improved Process:** What could be changed or developed in the assessment process?
3. **Staff Learning:** What might you want to train your staff on about improving the assessment phase?

Creating Safety During Assessment

How do we help clients feel safe to be open and honest?

Being genuine

Understanding cultural factors

Acknowledging power dynamics

Reminding them they can take breaks or say no

A man and a woman are crouching in a field, examining plants together. The man is on the left, wearing a light blue shirt and glasses, and the woman is on the right, wearing a plaid shirt. They are both looking down at the plants. The background is a bright, sunny field with a fence and trees. The text is overlaid on the image in a bold, blue, italicized font.

Creating safety and transparency during the assessment phase will create a solid foundation and set the partnership up for long-term success.

What Is Strengths-Based Assessment?

- Finding out what you already have to get you through the journey

Examples

“Describe a day when the issues/effects of your SMI are not occurring—what is noticeably different?”

“How have you overcome this issue in the past?”

“What are your hopes, visions, and aspirations?”

“What have you learned about yourself during your most difficult times?”

“What organizations or groups have been especially helpful to you in the past?”

“When people say good things about you, what are they likely to say?”

Let's Practice

Group Brainstorms

Pick five closed-ended questions from your current assessment form and convert them into open-ended questions.

Pick five questions from the list provided that you would like to add to your assessments and explain why.

Pick five questions from your current assessment form and convert them into strengths-based questions.
