**Janis Tondora, Psy.D.,  
Director of  
Systems Transformation,  
Yale Program for  
Recovery and Community  
Health**

Dr. Tondora's professional interests focus on the design, implementation, and evaluation of services that promote self-determination, recovery, and community inclusion among individuals living with behavioral health conditions. She has provided training and consultation to over two dozen states and numerous international collaborators seeking to develop person-centered planning models and programs.

**Dan Wartenberg, Psy.D.,  
M.P.H., Chief Clinical  
Officer, Newport Mental  
Health**

Dr. Wartenberg has more than 30 years of experience designing and implementing innovative behavioral health services in a variety of settings. His passion lies in operationalizing the principles of recovery and person-centered care to create living, breathing programs that help individuals attain their life goals. He conceptualized and led the transformation of a traditional CMHC to a recovery-oriented system of care and created a person-centered planning template implemented throughout the state of Connecticut.

## Person-centered Recovery Planning Learning Collaborative

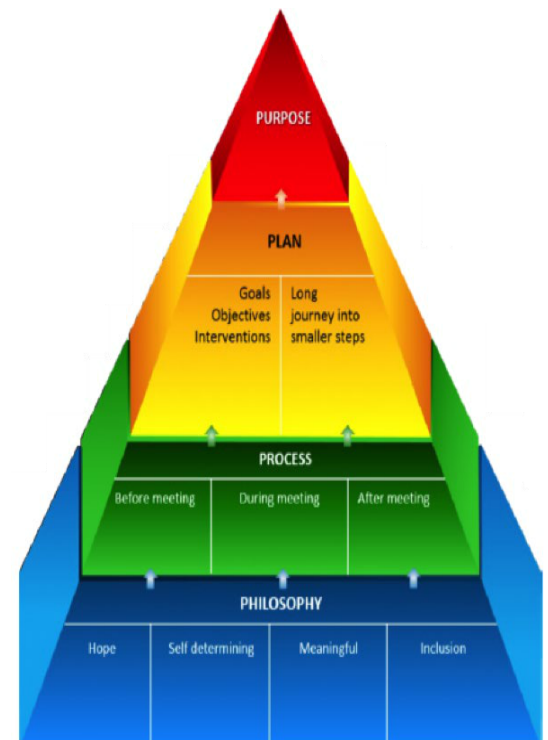

Janis Tondora and Dan Wartenberg  
*Starting December 17, 2019, 1:00 p.m. EDT*

Person-Centered Recovery Planning (PCRP) is increasingly recognized as an essential practice in a recovery-oriented system of care.

This learning collaborative will review key indicators of PCRP from both a process and a documentation perspective. Participants will receive interactive, online training, informative webinars, and individualized technical assistance to support implementation of PCRP practices.

Particular emphasis will be placed on strategies for maintaining a strengths-based recovery orientation in collaborative care planning while simultaneously meeting rigorous documentation standards associated with fiscal and regulatory requirements. implementation efforts.
