

Telehealth Interactive Quick-guide

what you need to know to get up and running with telehealth — quickly and efficiently

Successful telehealth implementation requires understanding how technology, billing, and policy and licensure work independently and together.

1. TECHNOLOGY

Patient Sessions — Focus on **VIDEO**

ZOOM

FACETIME

- a. Desktop Computer / Laptop
- b. Built-in Camera or External Camera
- c. Internet Connection — More Bandwidth = Better Video

MOBILE APPS

Zoom & Facebook (FaceTime & Messenger) have mobile apps that offer similar functionality using your cell phone. Service is often not as reliable.

Digital Literacy
the nuts & bolts of getting started on the computer.

2. BILLING

Reimbursement — Know Your **BILLING CODES**

What is your insurance company's code for Telehealth?
