

JOIN US AT THESE NO-COST IHS-SPONSORED ECHO PROGRAMS

TeleECHO[™] are twice-monthly virtual, peer-mentorship and educational sessions **designed for IHS practitioners and health professionals serving American Indian/Alaska Native patients.**

Interactive, case-based learning with an emphasis on working through real patient and system level challenges

Based on skills and knowledge for COVID-19 response, substance use, mental health, and community health

Build a network of public and clinical health peers working in tribal communities around the country

*Each program has no cost and is open to **all** members of the health care team. CME/CEUs available.*
