In response to the recent pandemic (COVID-19), the Mountain Plains Mental Health Technology Transfer Center (MHTTC) is providing up-to-date, mental health resources for parents and caregivers. The Mountain Plains MHTTC serves a six-state region. Funded by the Substance Abuse and Mental Health Services Administration (SAMHSA), the Center is focused on providing free training, products, and technical assistance to individuals serving persons with mental health disorders.

Parents/Caregiver Guide to Helping Families Cope with the Coronavirus Disease 2019
From the National Child Traumatic Stress Network this guide assists parents and caregivers to understand what COVID-19 is, how to prepare the family for an outbreak, techniques to reduce the risk of contracting the virus, coping strategies for dealing with stress, and helping children cope. Also included are resources for seeking additional help.

Resources for Supporting Children's Emotional Well-Being During the COVID 19 Pandemic
From Child Trends, this website clearly and concisely covers the current COVID-19 pandemic as it relates to children and their parents and caregivers. This publication has a wealth of resources for parents and other caregivers ranging from how to stay healthy and talking to children about the pandemic to staying socially connected and engaging in self-care.
