The 22 mentors and mentees on mental health, prevention, and addiction fields are an excellent group of earnest and highly motivated behavioral health professionals. Throughout the week we had fantastic inspirational, sessions such as recognizing personal strengths, delegating responsibility, conflict, and much more.

The 22 mentors and mentees from mental health, prevention, and addiction fields are an excellent group of earnest and highly motivated behavioral health professionals. Throughout the week we had fantastic inspirational sessions such as recognizing personal strengths, delegating responsibility, conflict, and much more. On Wednesday, mentors joined the group and discussed about the future of the health care system, tribal needs, and the importance of health care professionals. Dr. Dale Walker leads these sessions. We also hold monthly follow up and training sessions.

Between our three collective meetings we offer networking with other mentors and mentees. This twelve-month, culturally informed leadership program is intended to strengthen the behavioral health workforce in Native communities.

We have accepted 22 Mentors and Mentees into the 4th annual American Indian & Alaska Native Leadership Academy. The Immersion Training is a 5-day experience held in August in Tama, Iowa at the Meskwaki Hotel and Casino in Tama, Iowa. Mentors and mentees were trained in their roles and matched with each other.
