

K-12 Behavioral Health and COVID-19 Needs Assessment

CALLING ALL SCHOOL PROFESSIONALS

Please share your thoughts with us!

We are conducting this anonymous survey to collect information about the needs and assets of schools to support the well-being of Native students during, and after, the COVID-19 pandemic.

This data will be used to develop programming and technical assistance strategies to best support schools working with Native children and youth going forward.

Eligibility to Participate:

You may participate in the survey if:

- You work in any capacity at/with a K-12 school serving Native youth
- You are over the age of 18
- You have not yet completed this survey

Survey Length:

This survey involves multiple choice and short answer questions. It should take about 5-10 minutes to complete depending on the answers given.

Click here to take the survey!

Compensation:

After completing the survey you can choose to be entered to *win a set of 2 Native designed face masks*.

Help Us By Referring:

- Even if you are ineligible to take the survey, please help us reach as many school staff working with Native students as possible.
- To share the survey, simply forward this email or follow the instructions given at the end of the survey.
- For each eligible person you refer, get an additional chance to win 2 Native designed face masks (must have taken the survey and completed incentive form)

Thank you for helping our center best meet the needs of the Native K-12 population!
