Peer Voices Training

The Southeast MHTTC, in partnership with the Georgia Mental Health Consumer Network (GMHCN), is pleased to offer “The Peer Voice” training on **Wednesday, June 19, 2019** hosted by **SC Share** at 2414 Bull Street, Columbia, SC 29201.

“The Peer Voice” training will provide mental health peers the ability to gather data from their communities to build support for mental health recovery. Participants will understand how grassroots mental health organizations successfully emerge by responding to the needs and goals of the people in their communities and working collaboratively with other organizations and service providers. At the end of the training, participants will be able to:

1. Collect data using data collection tools for large and small community groups.
2. Discuss the importance of the voice of the behavioral health peer community in the development and delivery of services.
3. Describe the benefits of collaborating with allied organizations.
4. Discuss the role of the behavioral health peer community in providing diverse perspectives.
5. Identify strategies for including the voice of the behavioral health peer community in adapting data collection tools.
6. Create a plan to develop a system of information gathering for the peer populations you serve.

For more than twenty-five years, GMHCN has promoted empowerment and recovery by providing peer-driven mental health services. They are now partnering with the Southeast MHTTC to provide trainings throughout Region IV for state leaders, recovery specialists, certified peer specialists and more.
