

Serving HHS Region 5: IL, IN, MI, MN, OH & WI

What is the MHTTC Network?

The MHTTC Network includes a Network Coordinating Office (NCO), ten (10) MHTTC Regional Centers, a Tribal Affairs Center, and a Hispanic and Latino Center. Our collaborative network will support resource development and dissemination, training and technical assistance, and workforce development in the mental health field. The MHTTC Network will work with organizations and treatment practitioners involved in the delivery of mental health services to strengthen their capacity to deliver effective evidence-based practices to individuals, including the full continuum of services spanning mental illness prevention, treatment, and recovery support.

Great Lakes MHTTC

The Great Lakes MHTTC will provide high-value training and technical assistance targeted to local needs in Health and Human Services Region 5.

Our Goals

The goals of the Great Lakes MHTTC are to:

- Accelerate the adoption and implementation of evidence-based practices.
- Heighten the awareness, knowledge, and skills of the workforce.
- Develop strategies for delivering culturally informed care with diverse practitioners, researchers, policymakers, family members, and consumers of mental health services.
- Increase access to publicly available, free-of-charge training and technical assistance for the mental health field.

Services We Offer

The Great Lakes MHTTC offers a broad array of training and technical assistance to the mental health workforce. Areas of focus include:

- Implementing evidence-based practices for adults with serious mental illnesses (SMI)
- Process improvement for mental health care settings in order to improve access to, and retention in treatment
- Culturally competent service delivery
- Integration of mental health treatment into other healthcare settings
- Recovery-oriented systems of care
- Technology tools for treatment and recovery

How We Will Measure Our Success

Great Lakes MHTTC outcomes:

- Increase the number of people in the mental health or related workforce trained in mental health-related practices.
- Increase the number of individuals who have received training in mental health promotion, prevention, treatment, and recovery support.
- Increase the number of individuals contacted through program outreach efforts.
- Increase the number of programs, organizations, and communities that implement evidence-based mental health-related practices and activities.
