

# COMING HOME to PRIMARY CARE

*Pediatric Integrated Health*

## Starting Down the Integrated Care Road and How the Mid-America MHTTC Can Help

12-1 p.m. CT Friday, July 31, 2020

This session will introduce the integration of behavioral health providers in primary care practices as well as the technical assistance the Mid-America MHTTC offers in this field. Speakers will demonstrate how integration efforts increase access to behavioral health, increase appointment attendance and reduce stigma. Members of the Mid-America MHTTC Integrated Care Program will welcome requests to establish and/or enhance integration efforts in primary care.

### Learning Objectives:

- Define integrated behavioral health care
- Identify the consequences and costs of poor health to society, particularly poor behavioral health
- Explain the importance of primary care in mental health delivery
- Describe the advantages of integrated care for patients, physicians, and providers

### Target Audience:

Behavioral health providers (psychologists, masters level counselors, social workers etc.), primary care providers (physicians, NPs, PAs) and Nurses (RNs).
