MHTTC

Mental Health Technology Transfer Center Network

Funded by Substance Abuse and Mental Health Services Administration

National American Indian and Alaska Native Mental Health Technology Transfer Center

The National American Indian and Alaska Native MHTTC works with organizations and treatment practitioners involved in the delivery of mental health services to American Indian and Alaska Native individuals, families, and tribal and urban Indian communities to strengthen their capacity to deliver effective evidence-based and experience-based practices. This includes the full continuum of services spanning mental illness, prevention, treatment, and recovery support.

The center also includes a K-12 School Initiative, which is committed to providing culturally informed, evidence based and experienced based programs and services to support Native students' spiritual and emotional wellbeing. We provide a forward-thinking approach that give respect to their identity, culture and sovereignty.

A LOOK AT YEAR 2

Number of events: **69**

Number of participants: **4,797**

Notable Programs & Projects:

Workwise
SKILLS-BASED
