

The Zoom Interface

The screenshot displays the Zoom Webinar interface with several key components and annotations:

- Header:** "Zoom Webinar" title bar, status bar showing "You are viewing David Terry's screen" and "View Options".
- Main Content Area:** Displays the "TTC Technology Transfer Centers" logo and a message: "Thank you for joining us today! You will not be on video during today's session".
- Q&A Window:** A "Question and Answer" window is open, showing a list of questions. Annotations explain that users can switch between "All questions (1)" and "My questions (1)". A sample question is shown: "You 07:35 AM This is a test question!". Below the list is a text input field labeled "Type your question here...".
- Chat Window:** A "Zoom Webinar Chat" window is open on the right. Annotations explain that the chat feature allows users to talk with other people in the webinar. The "To:" field is highlighted, with a note: "The To field will tell you who will receive your message. Be mindful of who you are chatting to." The current selection is "To: All panelists", with a note: "Your text can only be seen by panelists".
- Bottom Toolbar:** Contains buttons for "Audio Settings", "Chat", "Raise Hand", "Q&A", and "Leave". Annotations point to these buttons: "Click Here to adjust your audio settings" points to the "Audio Settings" button; "Click here to leave the session" points to the "Leave" button.
- Speaker Selection:** A "Select a Speaker" dropdown menu is visible, showing options: "Speakers (Realtek(R) Audio)", "Same as System", "Test Speaker & Microphone...", "Leave Computer Audio", and "Audio Settings...".

All attendees are muted. Today's session will be recorded.

Telebehavioral Health Services: Planning and Investing for the Future of Your Services

Session 5: What Behavioral Health and Digital Mental Health Infrastructure to Build Now and What Can Be Built Later

Jay Ostrowski

Behavioral Health Innovation

8/11/2021

Northeast and Caribbean (HHS Region 2)

MHTTC

Mental Health Technology Transfer Center Network

Funded by Substance Abuse and Mental Health Services Administration

About Us ...

The Northeast and Caribbean MHTTC received 5 years (2018 – 2023) of funding to:

- Enhance capacity of behavioral health workforce to deliver evidence-based and promising practices to individuals with mental illnesses.
- Address full continuum of services spanning mental illness prevention, treatment, and recovery supports.
- Train related workforces (police/first responders, primary care providers, vocational services, etc.) to provide effective services to people with mental illnesses.

Supplemental funding to:

- Support school teachers and staff to address student mental health
- Support healthcare providers in wellness and self-care activities

Grow Your Knowledge and Skills

We Want Your Feedback!

Our funding comes from the Substance Abuse and Mental Health Services Administration (SAMHSA), which requires us to evaluate our services. We appreciate your honest, ANONYMOUS feedback about this event, which will provide information to SAMHSA, AND assist us in planning future meetings and programs.

Feedback about this training will assist us in developing future trainings that are relevant to your professional needs. Therefore, your feedback counts!

Video Recording Information

Please Note:

We will be recording this webinar and posting it to our website along with the presentation slides and any relevant resources.

Disclaimer

This presentation was prepared for the Northeast and Caribbean Mental Health Technology Transfer Center (MHTTC) under a cooperative agreement from the Substance Abuse and Mental Health Services Administration (SAMHSA). All material appearing in this presentation, except that taken directly from copyrighted sources, is in the public domain and may be reproduced or copied without permission from SAMHSA or the authors. Citation of the source is appreciated. Do not reproduce or distribute this presentation for a fee without specific, written authorization from the Northeast and Caribbean Mental Health Technology Transfer Center (MHTTC). This presentation will be recorded and posted on our website.

At the time of this presentation, Tom Coderre served as Acting Assistant Secretary for Mental Health and Substance Use at SAMHSA. The opinions expressed herein are the views of the speakers, and do not reflect the official position of the Department of Health and Human Services (DHHS), or SAMHSA. No official support or endorsement of DHHS, SAMHSA, for the opinions described in this presentation is intended or should be inferred.

This work is supported by grant H79SM081783 from the DHHS, SAMHSA.

Your Interactions With Us

Question and Answers

- Q & A will occur at the end of the call.
- Type your questions in the Q & A feature in Zoom located on the task bar (hover over task bar).
- Note: your question is visible to all participants.

Chat and Polls

- Throughout the webinar, we will be asking for your input.
- Use the Chat or Poll features in Zoom located on the task bar.
- You can control who can see your chat comments.

The MHTTC Network uses affirming, respectful and recovery-oriented language in all activities. That language is:

STRENGTHS-BASED
AND HOPEFUL

INCLUSIVE AND
ACCEPTING OF
DIVERSE CULTURES,
GENDERS,
PERSPECTIVES,
AND EXPERIENCES

HEALING-CENTERED AND

What Telebehavioral Health And Digital Mental Health Infrastructure To Build Now And Build Later

Jay Ostrowski

Roles

CEO - Behavioral Health Innovation

CEO - Adaptive Telehealth

Consultant - Mid-Atlantic Telehealth

Resource Center

Licenses and Certifications:

Licensed Professional Counselor Supervisor

Licensed Professional Counselor (MI, SC)

Approved Clinical Supervisor

National Certified Counselor

Board Certified - Telemental Health Provider

Learning Objectives

- ❑ Why
- ❑ Prepare Your Company
- ❑ Prepare Your Staff
 - ❑ How to be Agile
- ❑ Prepare Your Workflows
- ❑ Prepare Your Data
- ❑ Security Considerations
- ❑ Scale and Optimize

Does it make sense to plan, build and scale a telehealth practice?

GLOBAL TELEHEALTH MARKET SIZE, 2020-2027

\$21.17

Billion in 2019

\$71.44

Billion by 2027

Growing at a CAGR of

16.4%

GLOBAL TELEHEALTH MARKET BY COMPONENT

Software & Services | Hardware

Copyright © Verified Market Research | www.verifiedmarketresearch.com

What Telebehavioral Health And Digital Mental Health Infrastructure To Build Now And Build Later

© 2021 Jay Ostrowski [Behavioral Health Innovation](#) and [Adaptive Telehealth](#)

Why the Growth?

1. Demographic
2. 133 million people, or forty-five percent of Americans, have at least one chronic illness.
3. Over 150 pieces of telehealth legislation
4. Acceptance
5. Fear

Future - Bottom Line

- ❑ Options
- ❑ Validate
- ❑ Train
- ❑ Integrate
- ❑ Plan to pivot
- ❑ Scale
- ❑ Continuous feedback
- ❑ Continuous improvement

Now and Then

What can you do now?

Prepare Your Company-Management

Get good at change.

- ☐ Design thinking
- ☐ Project management
- ☐ Change management
- ☐ Feedback loops
- ☐ Continuous improvement cycles

FAIL

Failed Programs

Who is at the tip of the spear?

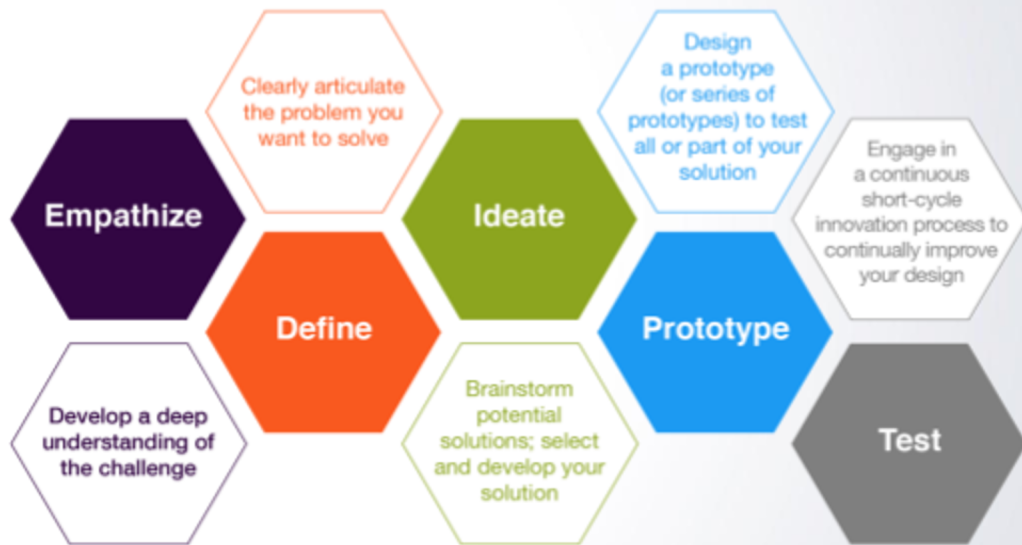

- ❑ Clinical Champion
- ❑ Admin Champion
- ❑ Management Champion
- ❑ Tech Champion

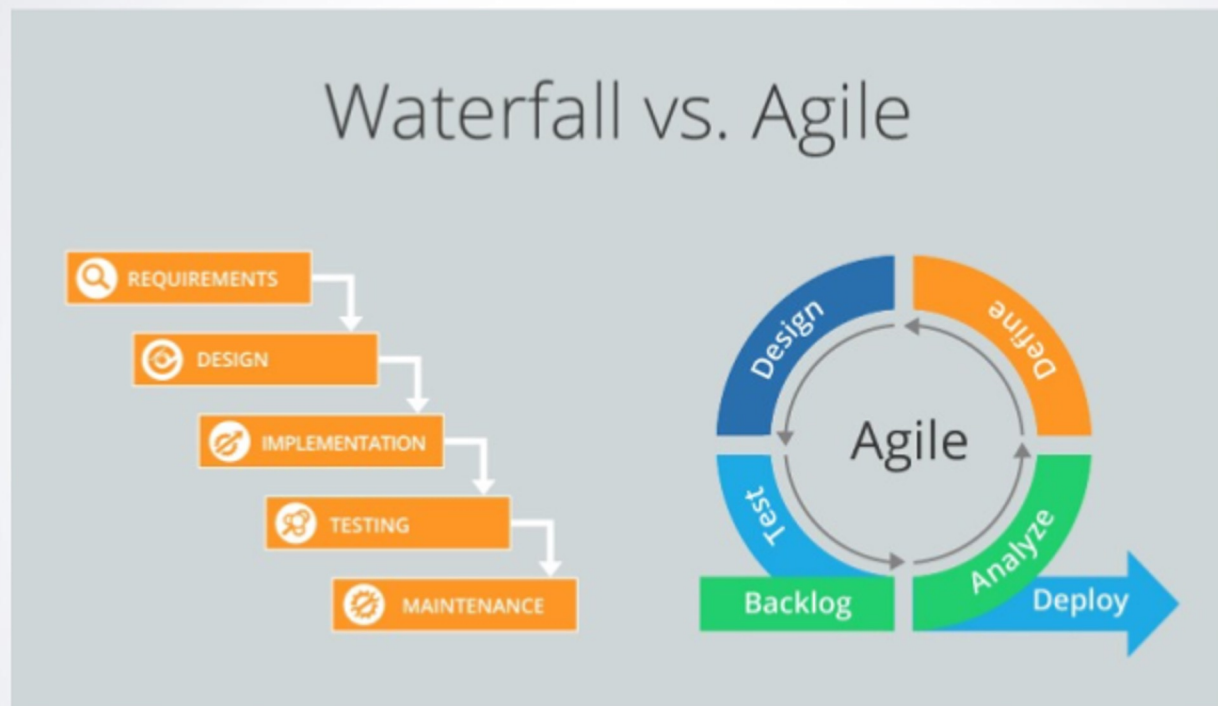

Prepare Your Staff

- ☐ Identify talent
- ☐ Nurture talent
- ☐ Outside training for talent
- ☐ Duplicate talent

Learn to Be Agile

Waterfall vs Agile

Studies have shown that in over **80%** of the investigated and failed software projects, the usage of the Waterfall methodology was one of the key factors of failure.

5 levels of Agile Planning

HIPAA Compliance

Your HIPAA security is outdated

Security is a new cost of business even without telehealth

Software cannot make you HIPAA compliant.

HIPAA Compliance

Documentation Required and Recommended:

Training documentation (**Required** by HHS)
Risk Assessment (**Required** by HHS)
Remediation recommendations (Recommended by HHS)
Risk Management Plan (**Required** by HHS)
Logs: Access management, equipment, network, applications (**Required** by HHS)
Breach Notification Plan (**Required** by HHS)
Policies and procedures (**Required** by HHS)
Business Associate Agreement (**Required** by HHS)
Business Associate Agreement tracking (**Required** by HHS)
Privacy Breach log (**Required** by HHS)
Breach Notification Plan (**Required** by HHS)
Final HIPAA-HITECH Audit Report (Recommended)

Financial Preparation

Models and codes

Temporary Telehealth Service Code Updates			
Code	Code Description	Z1 Fee on File Medicaid Rate	Effective Begin Date
99441	TELEPHONE E&M SERVICE BY A PHY OR OTHER QUALIFIED HLTH CARE PROFESSIONAL WHO MAY REPORT E&M SERVICES PROVIDED 5-10 MINS	\$37.29	3/1/2020
99442	TELEPHONE E&M SERVICE BY A PHYSICIAN OR OTHER QUALIFIED HLTH CARE PROFESSIONAL WHO MAY REPORT E&M SERVICES PROVIDED FOR ESTAB PATIENT 11-20 MINS	\$62.33	3/1/2020
99443	TELEPHONE E&M SERVICE BY A PHYSICIAN OR OTHER QUALIFIED HLTH CARE PROFESSIONAL WHO MAY REPORT E&M SERVICES PROVIDED FOR ESTAB PATIENT 21-30 MINS	\$90.90	3/1/2020

WHAT VIRTUAL SERVICES ARE COVERED BY MEDICARE?

Prepare Your Technology

What Type of Infrastructure Do You Need?

Infrastructure Attributes

- ☐ Technology has to be available where care happens
- ☐ Technology has to be reliable
- ☐ Open to Integrations
- ☐ Adaptable
- ☐ Easy to use
- ☐ Upgradeable
- ☐ Customizable
- ☐ Low maintenance costs

Internet Usage

Internet use

% of U.S. adults who use the internet

Source: Surveys conducted 2000-2019. Data for each year based on a pooled analysis of all surveys conducted during that year.

93% of American Adults Use the Internet.

Americans of all ages are increasingly likely to say they mostly go online using their smartphone

% of U.S. adults who say they mostly go online using a cellphone

Note: Respondents who did not give an answer or gave other responses are not shown.
Source: Survey of U.S. adults conducted Jan. 8-Feb. 7, 2019. Trend data from previous Center surveys.

"Mobile Technology and Home Broadband 2019"

PEW RESEARCH CENTER

What Telebehavioral Health And Digital Mental Health Infrastructure To Build Now And Build Later

© 2021 Jay Ostrowski [Behavioral Health Innovation](#) and [Adaptive Telehealth](#)

Prepare Your Technology

Lease, Buy, Build?

Prepare Your Hardware

Personal Devices?

A successful telehealth infrastructure must be flexible enough to handle the 'bring your own device' or BYOD, trend. The BYOD revolution, in which healthcare providers and their patients utilize their personal devices to access telehealth systems, will increase demand on telehealth infrastructure.

Bring Your Own Device Use in Healthcare

A recent study shows widespread BYOD among those in healthcare, including 51% of nurses, 91% of doctors, and 79% of healthcare executives. The benefits of BYOD for healthcare providers include improved workflow and time savings, in addition to cost savings

Software Attributes

Creating program success and fluidity:

HIPAA Security Measure

EHR Integration and Prescriptions

Reporting & Analytics

Reimbursement Documentation

Usable for many future use-cases

Easily customized at low/no cost

Interoperability: Why it's important

Biometric Integration

- ❏ Biometric data at the patient's home will increasingly become used in behavioral health evaluation and treatment.

Prepare Your Data

Prepare Your User Experience

- ❑ Software and Hardware MUST be easy to use.
- ❑ Straightforward patient and provider interfaces,
- ❑ Clients-Patients want their own user-friendly portal and access to online customer service
- ❑ What will you use for this? ZenDesk is not HIPAA secure.
- ❑ Required to keep records of these interactions

Prepare Your Workflows

What Telebehavioral Health And Digital Mental Health Infrastructure To Build Now And Build Later
© 2021 Jay Ostrowski [Behavioral Health Innovation](#) and [Adaptive Telehealth](#)

Prepare Your Internet

- ☐ You need sufficient bandwidth to transmit audio and video data.

How are you going to access the internet?

- ☐ Digital Subscriber Line
- ☐ Cable Modem
- ☐ Fiber
- ☐ Broadband over Power Line
- ☐ Wireless
- ☐ Satellite

Is Broadband really required?

Tech Support & Training

- ❑ Access to technical support
- ❑ Staff training.
 - ❑ Management, Administration
 - ❑ Clinical
 - ❑ Technical

Build to Scale

- ❑ IT infrastructure
- ❑ Software
- ❑ Hardware
- ❑ IoT
- ❑ Scalable design
- ❑ Management & reporting
- ❑ Patient and Data Security (HIPAA)

Scalable Design

Telehealth systems need to be able to adapt to changes in:

- ☐ Reimbursement
- ☐ Regulations
- ☐ Market trends
- ☐ Demographics
- ☐ Technology
