Action Planning:

Use the action planning form to establish a plan for following through with your Wellness Plan (completed prior to this step).

In your action plan, include a process for regularly returning to your Wellness Plan to address barriers, adjust your plan, and internalize the process so that you can move away from supports and incorporate this into your lifestyle.

Tip: The action planning worksheet is simple and yet backed by research because it helps us be aware of honest with our biggest barriers. The more specific the barrier, the more success.

Post-session

Ongoing Practice & Experience:

Implement your action plan with your team or Practice Partner

Reflection:

As you implement your action plan, connect **at least once** with your Practice Partner to discuss the benefits you are experience or not experiencing, and any barriers and solutions to those barriers for maintaining the practice
