***Welcome to our
RACE
for Mental Health***

Raising Awareness Commemoration Event

We will begin in a few moments

Housekeeping Items

- We have made every attempt to make today's presentation secure. If you have any tech issues, please type "tech help" into the chat box.
- **This session is being recorded, and all attendees have been muted upon entry.**
- At the end of today's session, please complete a **brief** survey to let us know how we are doing.
- You will receive a follow up email on how to access a certificate of attendance; must attend at least 30 minutes. You will also receive the link to the session slides and recording.

- This event is closed captioned!

- Follow us on social media:

@MHTTCNetwork

Please Note:

This session is recorded and all materials will be posted to our website within 1 week.

Disclaimer

This presentation was prepared for the MHTTC Network under a cooperative agreement from the Substance Abuse and Mental Health Services Administration (SAMHSA). All material appearing in this presentation, except that taken directly from copyrighted sources, is in the public domain and may be reproduced or copied without permission from SAMHSA or the authors. Citation of the source is appreciated. Do not reproduce or distribute this presentation for a fee without specific, written authorization from the MHTTC Network Coordinating Office. This presentation will be recorded and posted on our website.

At the time of this presentation, Dr. Miriam E. Delphin-Rittmon served as Assistant Secretary for Mental Health and Substance Use in the U.S. Department of Health and Human Services (DHHS) and the Administrator of SAMHSA. The opinions expressed herein are the views of the speakers, and do not reflect the official position of DHHS or SAMHSA. No official support or endorsement of DHHS, SAMHSA, for the opinions described in this presentation is intended or should be inferred.

The MHTTC Network uses affirming, respectful and recovery-oriented language in all activities. That language is:

STRENGTHS-BASED
AND HOPEFUL

INCLUSIVE AND
ACCEPTING OF

MHTTC Network

Our Purpose

The purpose of the MHTTC Network is to accelerate the dissemination and implementation of mental health related evidence-based practices across the nation.

Our Goals

- Accelerate the **adoption** and **implementation** of mental health related **evidence-based practices** across the nation.
- Heighten the **awareness**, **knowledge**, and **skills** of the workforce that addresses the needs of individuals living with mental illness.
- Foster **regional** and **national alliances** among culturally diverse practitioners, researchers, policy makers, family members, and consumers of mental health services.
- Ensure the availability and delivery of **publicly available, free of charge, training and technical assistance** to the mental health field.

What We Do

- Provide **training and technical assistance**, develop and disseminate **resources**
- Provide **regional or population-tailored services** to states and treatment provider systems across mental health prevention, treatment, and recovery
 - Special school mental health supplement
- Work closely with SAMHSA Regional Directors, state behavioral health commissioners, and local stakeholders to **understand pressing needs in the region/population**
- Harness the power of the Network to **collaborate on projects of national importance**

How It Started

- Inconsistent training across the state
- High turnover rates
- Changing legislature

Health Knowledge Modules

Trauma Informed Service Delivery

Shared Decision Making

Recovery Oriented Care

Self-Care

Motivational Interviewing

Crisis Prevention and De-

escalation

Cultural Humility and

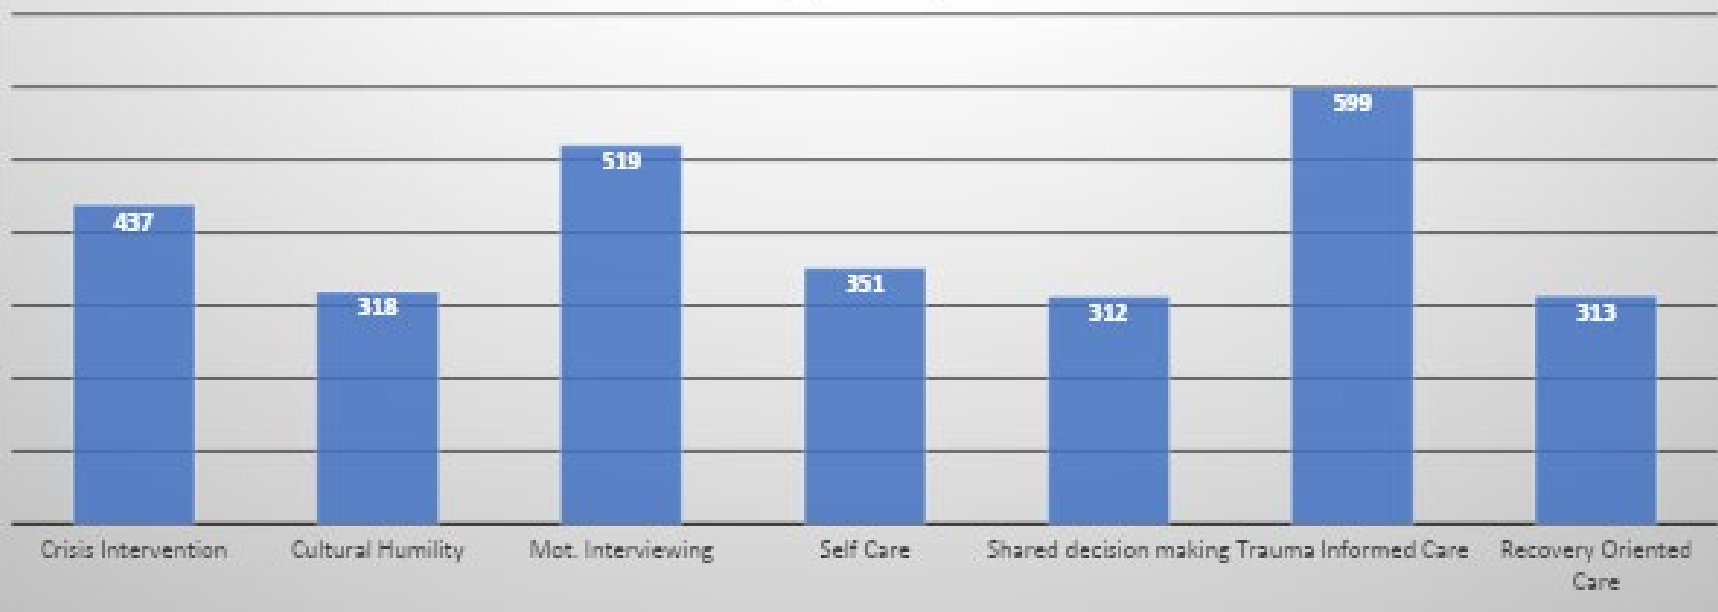

Competence

Supplemental Materials

Outline:

1. Education: Provide staff with information about cognitive bias. (Approx. 15 minutes)
2. Discussion points: Discuss situations in which bias could occur and discuss how to recognize it in the moment and what to do to mitigate it. (Approx. 45 minutes)
3. Activity: Read a sample case study to apply the discussed skills.
4. Resources: A list of different resources in your community.

Trainings completed

Anti-Stigma Toolkit: A Guide to Reducing Behavioral Health Disorder Stigma

Oscar Morgan, MHA
Central East MHTTC

May 2023

Root Causes of Stigma and Discrimination

- Lack of knowledge
- Social norms and beliefs
- Media portrayal
- Race, ethnicity, language and cultural disparities

Types of Stigma and Discrimination

- **Public stigma** is the negative or discriminatory attitudes that others have about mental illness
- **Self-stigma** is the negative attitudes, including internalized shame, that people with mental illness have about their own condition
- **Institutional stigma** is systemic and involves policies of government and private organizations that intentionally or unintentionally

Effects of Stigma and Discrimination

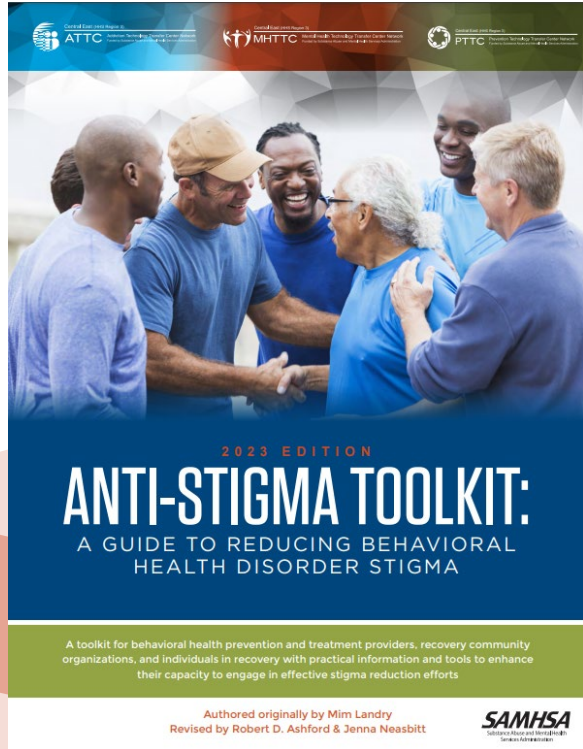

Leads to negative effects on recovery with mental illness

- Fear and shame
- Isolation
- Avoidance of treatment and inadequate healthcare
- Lower self-esteem
- Increased psychiatric symptoms
- Difficulties with social relationships
- Reduced likelihood of staying with treatment
- Ostracism and denial of rights
- Reduced hope

Stigma Reduction Strategies

- Learn more about behavioral health
- Be conscious of language
- Encourage equality
- Show compassion
- Work with the media
- Choose empowerment over shame
- Keep hope alive

Racial Equity and Cultural Diversity

This webpage includes a compilation of products and resources on cultural responsiveness, racial equity and cultural diversity for the mental health workforce, curated by the MHTTC Cultural Responsiveness Working Group (CRWG). The CRWG provides guidance and identifies, adapts and develops resources to support all MHTTCs in enhancing their awareness, knowledge, and expertise to address cultural and linguistic capacity to achieve equity.

This is an ever-evolving webpage that is updated periodically. If you are aware of a resource that you'd like us to consider highlighting on this webpage, please feel free to contact Jessica Gonzalez, MHTTC CRWG Logistics Coordinator at jegonzalez@stanford.edu.

Our Products

MHTTC Resources and Products

Products such as briefs and other resources from the 10 regional MHTTCs as well as the National American Indian and Alaska Native and National Hispanic and Latino MHTTCs.

Toolkits

Toolkits produced by a variety of organizations in order to give minority groups and their allies tools to deal with various problems they may face.

General Resources

A listing of non-MHTTC resources and other organizations that are doing work related to racial equity and cultural diversity.

Webinars and Videos

A collection of videos designed for both providers and the general public that contains a wide range of presenters and topics.

SAMHSA Resources

Links to resources from the Substance Abuse and Mental Health Services Administration.

Reports, publications, articles

Print resources that deal with the topics of race, culture, diversity, and inequality.

Culture shapes the way we ...

Give meaning to our experiences of psychological distress, health and healing

Express, explain and communicate our distress

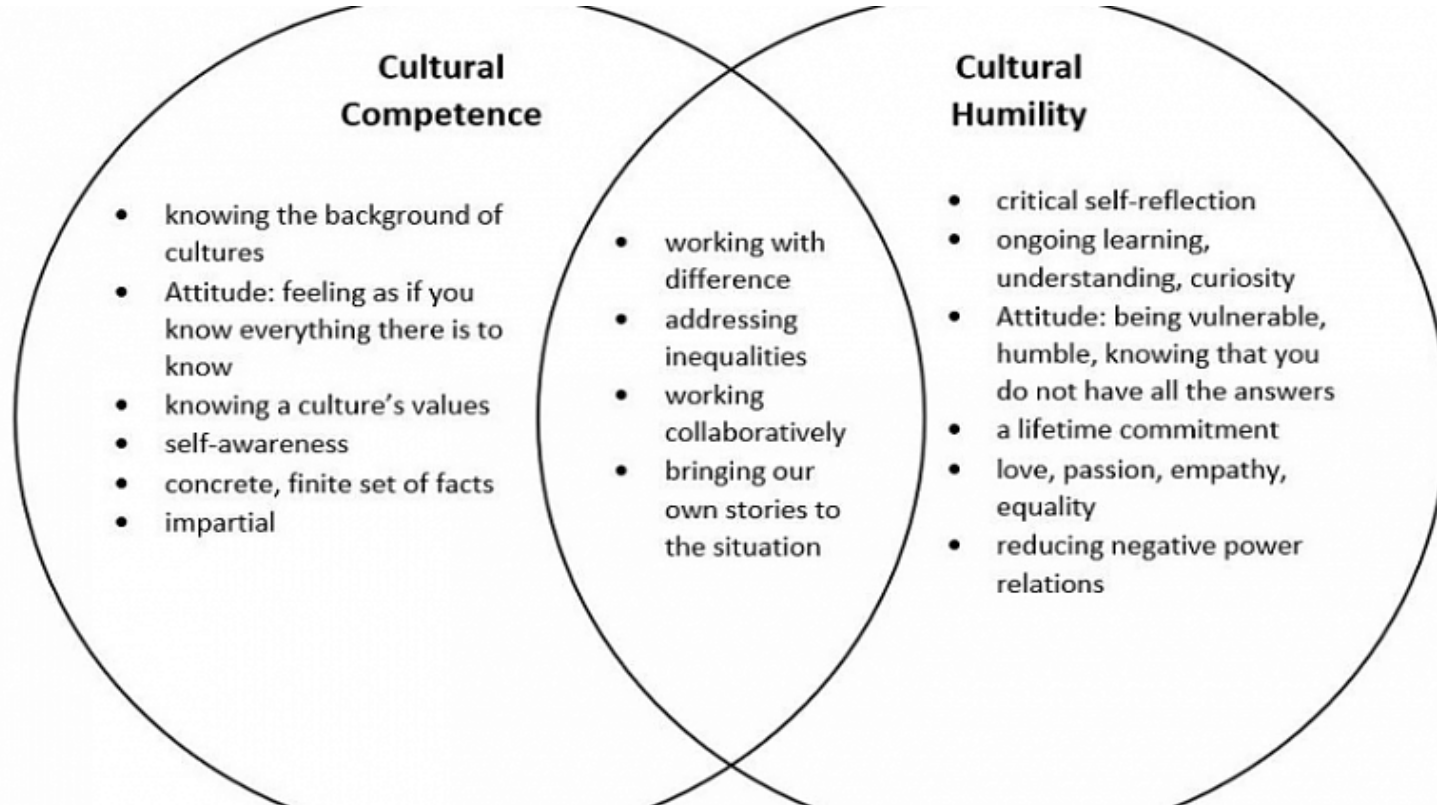

Seek help and participate in care

Perceive and prioritize our symptoms

Overview of Classroom WISE

Ricardo Canelo, MPH
MHTTC Network Coordinating Office
May 2023

Why is mental health literacy for educators so important?

Supporting Student Mental Health: Resources to Prepare Educators

- Collaboration with the National Center for School Mental Health
- Describes the role of educators in supporting student mental health
- Explains the core components of mental health literacy
- Provides an annotated list of existing resources and trainings that instruct educators on mental health literacy

Supporting Student Mental Health: Resources to Prepare Educators

Background

Educators and school personnel play a vital role in promoting mental health and well-being and identifying and responding to emerging mental illness in children and adolescents. However, they often have not received the education, training, and/or ongoing support needed to respond in the classroom. The MHTTC Network and the National Center for School Mental Health collaborated on an environmental scan and needs assessment of available educator mental health literacy training and resources. This document describes the role of educators in supporting student mental health, explains the core components of mental health literacy, and provides an annotated list of existing resources and trainings that instruct educators on mental health literacy.

Student Mental Health Facts

| | | | |
|---|--|--|--|
| Committed relationships with supportive adults can act as a protective factor for children (NSCDC, 2016) | 1 in 5 U.S. children meet criteria for a diagnosable mental health disorder (Child Mind Institute, 2016) | Students who participate in social emotional learning programs improve academic performance by 11–17 percentile points (Durlak et al., 2011) | 50% of mental disorders begin before age 14, 70% before age 18 (WHO, 2019) |
| Students with good emotion regulation skills perform better in school and are at less risk of mental health symptoms (Project CoVitality, 2020) | The average delay between onset of mental illness symptoms and treatment is 11 years (NAMI, 2018) | 17.2% of students nationwide reported seriously considering attempting suicide (CDC, 2017) | Early identification and intervention of mental health concerns can vastly improve school and life outcomes for students (Mental Health America, 2018) |

Available on the MHTTC Website!

Classroom WISE: Well-being Information and Strategies for Educators

A FREE 3-part training package for K-12 educators and school personnel on mental health literacy

The image shows a promotional graphic for Classroom WISE. The top half is a red banner with the text "Classroom WISE" in white, where "WISE" is significantly larger than "Classroom". Below this, in smaller white text, is "Well-Being Information and Strategies for Educators". The banner is decorated with a pattern of small white icons including a brain, a book, a heart, a sun, a musical note, a lightbulb, and a person. Below the banner, on a white background, are three red line-art icons: a head with a brain, an open book, and a laptop. Each icon is centered above its respective text label: "Online Course", "Video Library + Resource Collection", and "Website".

Classroom WISE Video Library

How Teachers Can Show Interest

Teachers can help keep students engaged by showing interest. In this video, students of various ages describe ways that teachers have shown interest in them and their lives.

1min 10sec

Promoting Self-Regulation

Self-regulation incorporates stress management, impulse control, and goal setting to positively impact motivation and moderate one's emotions, thoughts, and behaviors. In this video, teachers discuss strategies for promoting self-regulation in the classroom.

2min 30sec

Introducing Classroom WISE

Well-Being Information and Strategies for Educators

Classroom WISE is a FREE 3-part training package that assists K-12 educators in supporting the mental health of students in the classroom. Developed by the Mental Health Technology Transfer Center (MHTTC) Network in partnership with the National Center for School Mental Health, this package offers evidence-based strategies and skills to engage and support students with mental health concerns in the classroom.

In addition to a free online course on mental health literacy for educators and school personnel, a video library and resource collection are also available!

Now for a quick demo...

Cultural Inclusiveness and Equity WISE

- A companion training to Classroom WISE
- Educators learn:
 - How inequities in education impact student mental health
 - How implicit bias influences our perceptions and responses
 - Culturally inclusive classroom strategies to support student mental health

Module 1: Understanding How Social Injustices Impact Student Mental Health

Module 2: Understanding How Educator Bias Impacts Student Mental Health

Module 3: Engaging in Culturally Inclusive Classroom Actions to Promote Student Mental Health

Module 4: The Impact of Trauma and Adversity on Learning and Behavior
