

MENTAL AND BEHAVIORAL HEALTH MONITORING IN EARLY CHILDHOOD INTERVENTION:

Support for the Use of the Survey of Well Being of Young Children (SWYC) and
the Modified Checklist for Autism in Toddlers (MCHAT-R/F)

August 23, 2024

12:30pm - 1:30pm CDT

The South Southwest Mental Health Technology Transfer Center is excited to host a free, one-hour event on Mental and Behavioral Health Monitoring in Early Childhood Intervention. This highly interactive training is only open to Early Childhood Professionals working in the following states: Arkansas, Louisiana, New Mexico, Oklahoma, & Texas. This event will provide training on the Survey of Well Being of Young Children (SWYC) and the Modified Checklist for Autism in Toddlers (MCHAT-R/F).

The training will include:

- ▶ Guidelines for the administration, scoring, and interpretation of each measure
- ▶ Review of best practices in communicating results and decision-making regarding referrals
- ▶ Discussion of cultural considerations and resources to use in everyday practice

Presenter: Meredith Brinster, Ph.D.

**CEU Credit Available*
