We Love What We Have

Mosab Abu Toha

We love what we have, no matter how little, because if we don't, everything will be gone. If we don't, we will no longer exist, since there will be nothing here for us. What's here is something that we are still building. It's something we cannot yet see, because we are part of it. Someday soon, this building will stand on its own, while we, we will be the trees that protect it from the fierce wind, the trees that will give shade to children sleeping inside or playing on swings.
